

fcB2B Standard

Web Services Price Check Executive Summary

fcB2B has defined a series of web services for use by the industry to facilitate a common framework which suppliers and their customers can use to establish simple and low-cost electronic data for software applications. Web services are enterprise applications that exchange data over the internet.

Price Check Web Services are designed to protect the integrity of our Dealer and Supplier systems while not compromising on system and business integrities. The solution is a Bi-directional exchange of information through services that are reliable, robust, and designed to help integrate the flooring supply chain process.
