

## **fcB2B Standard**

### Web Services Stock Check Executive Summary

**fcB2B has defined a series of web services for use by the industry to facilitate a common framework which suppliers and their customers can use to establish simple and low-cost electronic data for software applications. Web services are enterprise applications that exchange data over the internet.**

The Stock Check service is designed so the requestor can provide a SKU and/or qty to the supplier and be provided a list of inventory that matches the request. What is returned is dependent on the supplier's business rules.
