KuduPro is a web based application which can be bought in any configuration of the modules which are Sales, Field Ops, Inventory, Accounting, and a Customer Portal all of which come with a Core back end for free. The cost is per user/per month no matter if its 1 user or 1,000 users allocated against all applications elected. The API's allow for integration into the system for various use cases with third party applications of which we provide connectors for Avalara, Google Addresses, BHD Pay, with a planned integration for MeasureSquare. KuduPro is currently in development and will start to be available in Q3 of 2023 with the full suite of applications available by Q1 of 2024.	Full ERP (Business Management) including accounting. 1099 Payroll included. W2 Payroll is through our partners with integrations.		N/A	Our ERP System is a true Cloud & Mobile ERP System licensed per user minimum two users. Licensing components include: 1) An up-front License Price, which includes training and system conversion assistance, plus 2) A Monthly SaaS Subscription. Monthly Software-as-a-Service Subscription provides: Hosting, Day-to-day Support, Software Enhancements and Ongoing Training.	We offer many solutions from commercial, multifamily and commercial subs.
